

Draft Agenda Questionnaire Analysis Workshop (WG3)

Faculty of Agriculture, University of Novi-Sad, Trg Dositeja Obradovića 21101 Novi Sad,
Republic of Serbia
24-25 October 2019

Invited Experts: Beniamino Caputo, Filiz Gunay, Mattia Manica, Antonios Michaelakis, Miguel Ángel Miranda Chueca, Cosmin Salasan

Task Leaders: Kelly Martinou & Willy Wint & **Host:** Dušan Petrić

Objectives of the workshop

The objectives of the current workshop are to discuss the work undertaken so far regarding the analysis of the questionnaires on surveillance and control methods that were distributed to mosquito experts earlier in the year. We will discuss and design future steps regarding reporting the findings to the wider group and stakeholders (by means of a report deliverable) and to the wider research community (peer reviewed publication). All participants will need to be ready to discuss their analyses and comment on their findings including presenting any gaps or short comes of their findings. New tasks and responsibilities will be allocated to the workshop participants and the need for a second questionnaire targeting specifically specialists in surveillance and control will be discussed and drafted if needed. By the end of the workshop the WG 3 should have a definite working plan for the next 2 months and ideas for the next 6 months. Detailed outlines of the deliverable preliminary report and ms concept, along with allocated responsibilities for completing each section, should also be prepared by the end of this 2 day workshop.

Day 1

Chair: Kelly Martinou

0900: Registration/Sign participants list!

0905-0930: Report on ECDC meeting (Willy Wint)

0930-1000: Overview of analysis of questionnaires (Kelly Martinou)
